Catalog Number: 195489
Ristocetin, sulfate salt

Structure:

Molecular Formula: C₉₅H₁₁₀N₈O₄₄ · H₂SO₄
Molecular Weight: 2166
CAS #: 1404-55-3
Synonym: Ristomycin monosulfate

Physical Description: Off-white crystalline powder
Purity: Approximately 90% Ristocetin A; remainder mostly Ristocetin B.
Description: Useful for investigation of platelet aggregation.
Solubility: Soluble in 1 N HCl (50 mg/ml - clear and colorless to pale yellow); soluble in water (clear, amber solution)
