

WHY **SAF**Test™?

RAPID ANALYSIS OF FAT QUALITY AND CONTENT

Fat quality and content are used as key indicators of overall quality, consistency and freshness in a variety of matrices. Designed for simplicity and speed, the SafTest system from MP Biomedicals is a proven and reliable solution for your testing needs.

- ✓ Simple, easy-to-use photometric analyzer
- ✓ Non-toxic, cost-effective and time-saving method for testing samples
- ✓ On-site instrument set-up and training
- ✓ Hands on technical support

SafTest Platforms

Name	Cat. No.
SafTest Analyzer	07MC3000
Solid Samples	
Solid Sample Instrumentation Platform for testing Peroxide, Alkenal	07SI2020
Solid Sample Instrumentation Platform for testing Free Fatty Acid, Malonaldehyde, Percent Fat, Total Glycerin	07SI2000
Solid Sample Consumables Platform for All Kits	07SC2000
Liquid Samples	
Liquid Sample Instrumentation Platform for testing Peroxide, Alkenal	07LI2020
Liquid Sample Instrumentation Platform for testing Free Fatty Acid, Malonaldehyde, Percent Fat, Total Glycerin	07LI2000
Liquid Sample Consumables Platform for All Kits	07LC2000

Each platform contains all instrumentation or consumables required for testing
