**GOAT ANTISERUM TO DEER SERUM
(FORENSIC) - 2ML**

Catalog #: 56008

Lot #: 05042

Total Protein: 65.7 mg/ml

DESCRIPTION:

Product is the lyophilized powder of goat antiserum to deer serum and buffer salts.

The antiserum is prepared by immunizing goats with deer serum; antiserum is delipidated and made specific by immunoabsorption with soluble antigens or solid-phase immunoabsorption where appropriate. The resulting antiserum is dialyzed into 0.02M sodium phosphate, 0.14M sodium chloride, pH 7.3, with 0.05% sodium azide, adjusted to standard titer, filtered through a 0.22 µm filter, vialled and lyophilized.

USES:

This product is intended for use as a precipitating antibody. It gives sharp precipitin lines in immunoelectrophoresis, capillary tube, and immunodiffusion techniques.

SPECIFICATIONS:

The total protein is measured using the Biuret procedure, with bovine albumin as the standard. The product shows the following reactions at the stated deer serum dilutions:

DEER SERUM DILUTION	IMMUNODIFFUSION				PRECIPITIN			
	PLATES	TUBE TEST			24 HR	48 HR	15 MIN	30 MIN
1:3	++++	++++	++++	++++				
1:10	++++	++++	++++	++++				
1:100	++++	++++	+++	+++				
1:1000	++	++	+	++				

The product has been tested at 60 mg/ml and found negative against the following whole sera at 20-25 mg/ml:

Bear Dog Horse Rabbit
 Bovine Goat Human Rat
 Cat Guinea Pig Monkey Sheep
 Chicken Hamster Mouse Swine
 Turkey

RECONSTITUTION:

Reconstitute product with 2.0 ml of deionized or distilled water. Gentle swirling may be used to speed rehydration. Avoid vigorous shaking of the reconstituted material. If a small amount of precipitate is present, or if preparation appears cloudy, clarify by centrifugation or filtration.

STORAGE:

Store product at 2-8°C. Store reconstituted material no longer than 4 weeks at 2-8°C. For long-term storage, aliquot and freeze reconstituted product at -20°C or lower.

WARNING AND CAUTION:

This product is intended **FOR RESEARCH USE ONLY**, not for use in diagnostic or therapeutic procedures involving humans or animals.

This product contains sodium azide. To prevent formation of toxic vapors, do not mix with strongly acidic solutions. To prevent formation of potentially explosive metallic azides in metal plumbing, always wash into drain with copious quantities of water.

RELATED PRODUCT ORDERING INFORMATION:

<u>Catalog #</u>	<u>Description</u>	<u>Size</u>
55830 (00001040)	ID DISCS PATTERN-A WITH INDICATOR	20EA
55831 (00001050)	ID DISCS PATTERN-A WITHOUT INDICATOR	20EA

For whole sera and other forensic antisera, please see our catalog.
