ImmunO™

Goat Anti-Mouse IgG
(H + L), Affinity Purified
Catalog #: 67028
Lot #: Q7780

Form: Liquid consisting of 0.01M sodium phosphate, 0.25M NaCl, pH 7.6. Product does not contain preservatives.

Antibody

Concentration: 2.3 mg/ml

Preparation: This product has been isolated from antisera by immunoaffinity chromatography using antigens coupled to agarose beads.

Specificity: By IEP and/or ELISA:

This antibody reacts with the heavy and light chains on mouse IgG and with light chains common to most mouse immunoglobulins. No antibody was detected against non-immunoglobulin serum proteins, but the antibody may cross-react with immunoglobulins from other species.

Storage: Store at 2-8°C. After opening dilute only enough antibody for a single day's use. Store the remainder at 2-8°C, under sterile conditions.

Expiration Date: 10/23/2018

Approved by: John Huang, PhD
Quality Control Manager
