# ImmunO™

Rabbit Anti-Human Lactoferrin

Affinity Purified

Catalog #: 67058

Lot #: 92477

**Description:** Sterile liquid in 0.01M sodium phosphate, 0.25M NaCl, pH 7.6. No preservatives added.

## Antibody

**Concentration:** 2.5 mg/ml

**Preparation:** This product has been isolated from antisera by immunoaffinity chromatography using antigens coupled to agarose beads.

**Specificity:** When tested by immunoelectrophoresis, the antibody reacts with human lactoferrin found in human milk. No antibody was detected against other milk or serum proteins, but antibodies may cross-react with lactoferrin from other species.

**Storage:** Store at 2 - 8°C. After opening dilute only enough antibody for a single day's use. Handle under sterile conditions when using to avoid contamination.
