ImmunO_{TM}

Normal Antibody Diluent
Catalog #: 98064
Lot #: 0101016409

Description

This diluent is a premixed, ready to use, sodium phosphate-based buffer solution, useful for the dilution of primary and/or secondary antibodies to be used in immunohistochemistry applications. It is suitable for both, acetone-fixed, frozen tissue sections and formalin-fixed, paraffin-embedded tissue sections.

Preparation Method

This antibody diluent is compatible with common stabilizing compounds at pH 7.3. Contains phosphate buffered saline. The buffer is filtered through a 0.2 um filter.

Storage

Room temperature.

Expiration Date

01/30/2028

Approved by:

A handwritten signature in black ink, appearing to read 'J. Aldup'.
