

## TECHNICAL INFORMATION

Catalog Number: 100881

**p-Nitrophenyl laurate**

**Structure:**

**Molecular Formula:** C<sub>18</sub>H<sub>27</sub>NO<sub>4</sub>

**Molecular Weight:** 321.4

**CAS # :** 1956-11-2

**Synonym:** Dodecanoic acid 4-nitrophenyl ester

**Physical Appearance:** White to off white crystalline powder

**Solubility:** Soluble in ethyl acetate (1% w/v-clear, colorless solution) and chloroform

**Note:** E(271) = 9775 (methanol)
