

TECHNICAL INFORMATION

Catalog Number: 104987

Propionic acid, hemicalcium salt

Structure:

Molecular Formula: $C_3H_5O_2 \cdot 1/2Ca$

Molecular Weight: 93.1

CAS # : 4075-81-4

Synonym: Calcium propionate

Physical Description: White powder

Description: An antifungal agent

Solubility: Soluble in water (1g/3ml); slightly soluble in methanol, ethanol; practically insoluble in acetone, benzene
