

TECHNICAL INFORMATION

Catalog Number: 150723
o-Cresolphthalein complexone

Structure:

Molecular Formula: C₃₂H₃₂N₂O₁₂

Molecular Weight: 636.62

CAS # : 2411-89-4

Synonym: Phthalein purple

Physical Appearance: Off white to pale pink powder

Description: A reagent for determination of calcium in serum

Solubility: Soluble in 0.1 N NaOH (clear purple solution); slightly soluble in water
