

## TECHNICAL INFORMATION

Catalog Number: 151872

**Phosphoenolpyruvic acid, trisodium salt hydrate****Structure:****Molecular Formula:**  $C_3H_2O_6PNa_3 \cdot H_2O$ **Molecular Weight:** 234**CAS # :** 5541-93-5**Synonym:** PEP-triNa**Physical Appearance:** White to slightly off white microcrystalline powder**Description:** PEP is the primary driving force in many kinase reactions.**Solubility:** Soluble in water
