

TECHNICAL INFORMATION

Catalog Number: 196052

Reseveratrol

Structure:

Molecular Formula: C₁₄H₁₂O₃

Molecular Weight: 228.25

CAS # 501-36-0

Synonyms: trans-3,4',5-trihydroxystilbene

Source: Synthetic

Physical Appearance: Off-white to tan powder

Description: Present in wine and grapes and found to reduce serum lipids, inhibit platelet aggregation and act as a chemopreventative agent and antioxidant.

Solubility: Soluble in methanol, DMSO and ethanol
