## TECHNICAL INFORMATION

Catalog Number: 960257, 960258  
**12% Protein Diet**

**Note:** Protein Test Diets do not contain sufficient Methionine at the 8, 12, and 20% levels. Supplementation with Methionine will greatly increase the health of the animal. See Low Renal Load Diet, catalog # 960330 and #960331 for 8% protein and the Low Protein Maintenance Diet, catalog # 960367 and # 960368 for the 12% protein level. See the AIN-76A diet for a similar diet with 20% protein.

Typically provides 3.79 kcal/gm diet.
