TECHNICAL INFORMATION

ImmunO™

Catalog Number: 810101, 810102
Bovine Albumin Path- 4

General: This product was derived from bovine blood collected at a USDA licensed facility. The cattle received ante- and post-mortem health inspection at the abattoir by a U.S. Veterinary Service Inspector and they were apparently free from infectious and contagious diseases. All donor animals were sourced from the United States, a country in which Bovine Spongiform Encephalopathy is not known to exist. Blood collection records were incorporated into the manufacturing batch documents.

No bacterial growth detected according to USP Procedures.

Note: Path-4 is equivalent to Path-O-Cyte-4, which is a registered trademark of Serologicals Protein, Inc., Kankakee, Illinois.

Note: This product may contain a preservative such as sodium azide, thimerosal or proclin. Please see lot specific chemical credential for preservative information.
